

STRATEGIC RESEARCH AND DEVELOPMENT RESEARCH AND ANALYSIS

Region 9

September 2006 Issue

Data for July 2006
(Preliminary)

Beginning with the January publication, this newsletter contains information on only the **Indiana Economic Growth Region 9** which includes Bartholomew, Dearborn, Decatur Franklin, Jackson, Jefferson, Jennings, Ohio, Ripley, and Switzerland Counties.

*INDIANA ECONOMIC GROWTH REGIONS

Indiana Workforce Development engaged Indiana Business Research Center to identify regions through a methodology that was both quantitative and qualitative in nature. As a result, eleven Indiana Economic Growth Regions were formed.

The July 2006 Job Openings and hourly wage information is for selected occupations that the Indiana Workforce Development offices in Economic Growth Region 9 received during July. The data are from the agency's Customer Self Service System (CS3) and Seagate Crystal reports software.

LOCAL EMPLOYMENT DYNAMICS

Local Employment Dynamics (LED), a partnership between the Indiana Department of Workforce Development and the U.S. Census Bureau, provides innovative demographic employment information (Quarterly Workforce Indicators) for local decision-makers, economic development agencies, education and training institutions, and transportation agencies. The Quarterly Workforce Indicators (QWI) measure the performance of the local economy. Turnover, separations, new hires, and average new hire earnings by county, metropolitan area, and Workforce Investment area are among the data items on the web site. The web address is: <http://lehd.dsd.census.gov/led/>. Select QWI On-line under Quick Links.

Labor Force Data The Labor Force Data presented here is the most recent data available at the time this letter was prepared. The July 2006 data are preliminary data and the July 2005 data are benchmarked data. Information for the United States, Indiana, and the counties that comprise Economic Growth Region 9 has been included.

As previously announced BLS had found errors in some of the employment inputs used in the sub state estimates published earlier this year and decided to conduct a thorough review of all inputs. That review is now complete. The corrections to the data for January, February, and March 2005 had small to moderate impacts on employment and labor force levels and little impact on unemployment rates in most areas. The labor force, unemployment and unemployment rate data for 2004 presented in this release also reflects the corrections to the inputs.
